2015 PMCA Supplemental Fee Schedule

COMMERCIAL FEE SCHEDULE

Our standard fee schedule for inspections is derived from the latest building valuation data report of square foot construction costs published by the International Code Council, with a regional modifier applied. Actual cost submitted to, and accepted by, the Building Code Official may also be used. There is a \$50 Application/Processing charge applied to all projects submitted on this fee schedule.

Refer to the PMCA Supplemental Fee Schedule as needed.

Large projects that require long term multiple inspections (progressive inspections) are calculated as follows:

Standard Building Inspection Fee Schedule

A.) Projects with a total construction cost of \$0.00 to \$499,999.99*

Total construction cost X .002 = Insurance cost
+ Estimated length of project in weeks X \$50. = labor & travel cost

B.) Projects with a total construction cost of \$500,000.00 to \$2,000,000.00*

Total construction cost X .002 = Insurance cost

= Total OR no less than \$50. Per trip based on scope and complexity of the project.

C.) Projects with a total construction cost of > \$2,000,000.00 to \$6,000,000.00*

2.) Standard Trades Inspection Fee:

The inspection fees for Mechanical, Plumbing, Electrical, Energy, Accessibility and Fire Protection are computed at 25 percent of the Building inspection fee for each discipline. Multiple prime contracts will be computed the same as a building inspection fee and combined prime contract fees shall be no less than a single contract fee, distributed on a percentage of total basis.

Inspection Fee Example (excluding plan review and application fee):

Type of Construction: 2B Height: 1 story, 12 feet Use Group: B Area/Floor: 9,000 sq. ft.

Solution		
1	Gross square footage: 1 story X 9,000 square feet	9,000 sq. ft.
2	Compute estimated construction value	
	Type of construction factor	1.02
	Gross area modifier	67
	Estimated construction value (30000 X 1.02 X 67	\$615,060.00
3	Compute basic inspection fee	
	Building: \$615,060.00 X .002	\$1,230.12
	Mechanical, Plumbing, Electrical: (.25 X \$1230.12) X 3	\$922.59
4	Total inspection fees	\$2,152.71
5	PMCA Discount fee: X .80 (if applicable**)	\$1,722

* Pricing schedules assume that the project will not cause an increase in our insurance costs.

** Discounts may be given for warehouses, building shells, or repetitive work at the discretion of the plan review and inspection departments

► A \$50 Application/Processing fee is applied for projects on this fee schedule. ◀

Commercial Plan Reviews

Our Commercial Plan review fees are calculated according to the Standard Building Valuation Data (as periodically published by the ICC) or actual cost of construction as follows:

1) Standard Commercial Building Plan Review Fee

- A.) Estimated Construction Value \$ 0. to \$ 1,250,000. = Construction value X .0015 (\$150 Minimum)
- B.) Estimated Construction Value \$ 1,250,000. to \$ 5,000,000. = \$1,875. + (.0005 X construction value over \$1,250,000.)
- C.) Estimated Construction Value over \$5,000,000. = \$3,750. + (.0004 X construction value over \$5,000,000.)

2) Standard Trades Plan Review Fee

Plan review for mechanical, plumbing, electrical, energy, accessibility and fire protection is computed at 25% of the building plan review fee for each discipline. (\$150 minimum)

Special pricing may be given to buildings such as warehouses due to their relative simplicity or structures with repetitive features such as high rise buildings

Refer to the Supplemental Fee Schedule when applicable.

Plan Review Fee Example (excluding plan review and application fee):

Type of Construction: 2B Height: 3 stories, 34 feet Use Group: B Area/Floor: 9,000 sq. ft.

1	Gross Square footage: 3 stories X 9,000 square feet	27,000 sq. ft.
2	Compute estimated construction value	
	Regional Modifier	1.02
	Square foot cost of construction	65
	Estimated construction Value (30,000 X 1.02 X 67*)	\$1,790,100.00
3	Compute Plan Review Fee	
	Building: \$1,875 + [(\$1,790,100 - \$1,250,000) X (.0005)]	\$2,145.05
	Mechanical, Plumbing, Electrical: (.25 X \$2,145) X 3	\$1,608.75
4	Total ICC Based Plan Review Fee	\$3,753.80

- (Gross area modifier of 67 as example, actually based on the average building cost per square foot in the geographic area.)
- This formula does not reflect changes that ICC may have made to their fee schedule. We will use other plan review services that meet our criteria for consistent quality and charge the same or less than ICC reviews.

Plan reviews only covering the requirements of mechanical, plumbing and other disciplines are available, each for a fee of 25% of the applicable building code review fee. Plan reviews for electrical code compliance shall be provided at a fee of 35% of the applicable building code review fee, excluding reviews for any use included in the Institutional or "I" Use Group classification. Reviews done for the excluded use classification shall be based upon the degree of complexity

We offer preliminary plan review services for a fee of 50% of the full plan review fee cost. Preliminary plan reviews typically address such code requirements as: use and occupancy classification, type of construction, height and area calculations, means of egress, fire restrictive construction requirements and so forth.

Any preliminary plan review fee payment will be credited towards the final cost of a complete plan review process.

► A \$50 Application/Processing fee is applied for projects on this fee schedule. ◀
